Yeshwantrao Chavan College of Engineering

(An Autonomous Institution affiliated to Rashtrasant Tukadoji Maharaj Nagpur University)

Hingna Road, Wanadongri, Nagpur - 441 110

NAAC A++

Ph.: 07104-237919, 234623, 329249, 329250 Fax: 07104-232376, Website: www.ycce.edu

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session 2026-2027

Vision: Dream of where you want.	Mission: Means to achieve Vision
---	---

Program Educational Objectives of the program (PEO): (broad statements that describe the professional and career accomplishments)

PEO1	Preparation	P: Preparation	Pep-CL abbreviation pronounce as Pep-si-IL easy to recall
PEO2	Core Competence	E: Environment (Learning Environment)	
PEO3	Breadth	P: Professionalism	
PEO4	Professionalism	C: Core Competence	
PEO5	Learning Environment	L: Breadth (Learning in diverse areas)	

Program Outcomes (PO): (statements that describe what a student should be able to do and know by the end of a program)

Keywords of POs:

Engineering knowledge, Problem analysis, Design/development of solutions, Conduct Investigations of Complex Problems, Engineering Tool Usage, The Engineer and The World, Ethics, Individual and Collaborative Team work, Communication, Project Management and Finance, Life-Long Learning

PSO Keywords: Cutting edge technologies, Research

“I am an engineer, and I know how to apply engineering knowledge to investigate, analyse and design solutions to complex problems using tools for entire world following all ethics in a collaborative way with proper management skills throughout my life.” to contribute to the development of cutting-edge technologies and Research.

Integrity: I will adhere to the Laboratory Code of Conduct and ethics in its entirety.

Name and Signature of Student and Date

(Signature and Date in Handwritten)

Session	2026-27	Course Name	Web Technology Lab
Semester	3	Course Code	23CT1301
Roll No	13	Name of Student	Juhi Parwani

Practical Number	1(A)
Course Outcome	1. Understand various internet technologies. 2. Design the web pages using HTML and CSS. 3. Implement the XML technology to store the data. 4. Develop the interactive web pages using JavaScript.
Aim	To develop an interactive To-Do List web page using HTML and JavaScript DOM manipulation.
Problem Definition	Develop a simple To-Do List web page that allows the user to enter a task and add it to a task list. Each added task should have Complete and Delete buttons. The Complete button should mark the task as completed, while the Delete button should remove the task from the list. JavaScript event listeners and DOM manipulation are used to provide interactivity.
Theory (100 words)	JavaScript is a scripting language used to make web pages interactive and dynamic. The Document Object Model (DOM) allows JavaScript to access and modify HTML elements. In this practical, JavaScript uses <code>getElementById()</code> to access the input field, button, and task list. Event listeners are used to respond to button clicks. New list elements and buttons are created using <code>createElement()</code> . The <code>classList.toggle()</code> method is used to mark a task as completed, while the <code>remove()</code> method deletes a task from the list.

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Procedure and Execution (100 Words)	Step for Implementation: Create an HTML file named <code>index.html</code> . Create a JavaScript file named <code>script.js</code> . Add a heading My To-Do List . Add a text box to enter a task. Add an Add Task button. Create an empty <code></code> element for displaying tasks. Link <code>script.js</code> with the HTML file. Access the required HTML elements using JavaScript. Add a click event to the Add Task button. Check whether the task input is empty. Create a new list item for a valid task. Add Complete and Delete buttons. Use <code>classList.toggle()</code> to complete a task. Use <code>remove()</code> to delete a task

	Output: 
Output Analysis	The practical demonstrates the use of JavaScript event handling and DOM manipulation . The user can add tasks dynamically, mark tasks as completed, and delete tasks. An alert is displayed when the user tries to add an empty task.
Link of student Github profile where lab assignment has been uploaded	https://github.com/juhiparwa-1507/Web-Technology-Lab.git
Conclusion	Thus, an interactive To-Do List was successfully developed using HTML, CSS, and JavaScript. The application allows users to add, complete, and delete tasks using JavaScript event listeners and DOM manipulation.
Plag Report (Similarity index < 12%)	Plagiarism Report: To be attached.
