

Nagar Yuwak Shikshan Sanstha's

Yeshwantrao Chavan College of Engineering

(An Autonomous Institution affiliated to Rashtrasant Tukadoji Maharaj Nagpur University)

Hingna Road, Wanadongri, Nagpur - 441 110

NAAC A++

Ph.: 07104-237919, 234623, 329249, 329250 Fax: 07104-232376, Website: www.ycce.edu

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session 2026-2027

Vision: Dream of where you want.	Mission: Means to achieve Vision
---	---

Program Educational Objectives of the program (PEO): (broad statements that describe the professional and career accomplishments)

PEO1	Preparation	P: Preparation	Pep-CL abbreviation pronounce as Pep-si-IL easy to recall
PEO2	Core Competence	E: Environment (Learning Environment)	
PEO3	Breadth	P: Professionalism	
PEO4	Professionalism	C: Core Competence	
PEO5	Learning Environment	L: Breadth (Learning in diverse areas)	

Program Outcomes (PO): (statements that describe what a student should be able to do and know by the end of a program)

Keywords of POs:

Engineering knowledge, Problem analysis, Design/development of solutions, Conduct Investigations of Complex Problems, Engineering Tool Usage, The Engineer and The World, Ethics, Individual and Collaborative Team work, Communication, Project Management and Finance, Life-Long Learning

PSO Keywords: Cutting edge technologies, Research

“I am an engineer, and I know how to apply engineering knowledge to investigate, analyse and design solutions to complex problems using tools for entire world following all ethics in a collaborative way with proper management skills throughout my life.” to contribute to the development of cutting-edge technologies and Research.

Integrity: I will adhere to the Laboratory Code of Conduct and ethics in its entirety.

Session	2024-25 (ODD)	Course Name	Web Technology Lab
Semester	3	Course Code	23CT1301
Roll No	13	Name of Student	Juhi Parwani

Practical Number	1(A)
Course Outcome	1. Understand various internet technologies. 2. Design the web pages using HTML and CSS. 3. Implement the XML technology to store the data. 4. Develop the interactive web pages using JavaScript.
Aim	Introduction to Internet (Overview of Internet, E-mail, WWW, FTP).
Problem Definition	To study the basic concepts of the Internet and understand the working and importance of Internet services such as E-mail, World Wide Web (WWW), Broadband and File Transfer Protocol (FTP).
Theory (100 words)	The Internet is a global network that connects computers and devices to share information and services. E-mail is an electronic communication service used to send and receive messages and files over the Internet. The World Wide Web (WWW) is a collection of interconnected websites and web resources accessed through web browsers using the Internet. Broadband provides high-speed Internet access through technologies such as fiber optics, wireless, cable and DSL. File Transfer Protocol (FTP) is used to transfer files between computers over a network. These technologies are important Internet services used for communication, information access, connectivity and file sharing.

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Procedure and Execution (100 Words)	Step for Implementation: 1. Identify the basic components and services of the Internet. 2. Study the concept and uses of E-mail. 3. Study the World Wide Web (WWW) and its role in accessing web pages and websites. 4. Understand Broadband as a high-speed Internet access technology. 5. Study FTP and its use for transferring files between computers. 6. Observe the relevant examples and diagrams given in the practical. 7. Record the important points and applications of each Internet service.
	Code: Not Applicable – Practical 1(A) is a theory-based practical and does not require any code.
	Output: The basic concepts of Internet, E-mail, World Wide Web (WWW), Broadband and File Transfer Protocol (FTP) were studied and understood. The relevant diagrams and examples from the practical were observed.

Figure 1: Overview of Internet

Figure 2: Working of E-mail

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Figure 3: FTP Mechanism

Output Analysis	The practical provided an understanding of the basic Internet services and their uses. Internet enables communication and access to information, E-mail is used for electronic messaging, WWW provides access to web pages and websites, Broadband provides high-speed Internet access, and FTP is used for transferring files between computers. The study of these concepts helped in understanding the role of different Internet services in communication, information sharing and file transfer.
Link of student Github profile where lab assignment has been uploaded	https://github.com/juhiparwa-1507/Web-Technology-Lab.git
Conclusion	The practical helped in understanding the basic concepts of the Internet and its important services such as E-mail, World Wide Web (WWW), Broadband and FTP. The study provided knowledge about their purpose, uses and role in communication, information access and file transfer.
